Sergeant Eric Distel will tell us about Escondido's participation in the **JOINT TERRORISM TASK FORCE (JTTF)**!

JTTF is our nation's front line on terrorism: small cells of highly trained,

locally based, passionately committed investigators, analysts, linguists, SWAT experts, and other specialists from dozens of U.S. law enforcement and intelligence agencies.

When it comes to investigating terrorism, they do it all: chase down leads, gather evidence, make arrests,

provide security for special events, conduct training, collect and share intelligence, and respond to threats and incidents at a moment's notice. The task forces are based in 104 cities nationwide. A total of 71 of these JTTFs have been created since 9/11; the first was established in New York City in 1980.

Sergeant Distel joined the Escondido Police Department on December 12, 1988, as a Police Officer. In his 27 years with the Escondido Police Department, Sergeant Distel has had the following assignments: Patrol, K-9 handler, and Field Training Officer. He was promoted to Police Sergeant on January 2, 2005. He holds Basic, Intermediate, Advanced, and Supervisory Certificates from the Commission on Peace Officer Standards and Training.

AMERICANISM—Barbara Fowler

“Would Hillary Clinton Really Be the First Woman President?”

Preface: During the Democratic Debates on Tuesday, October 13, in Las Vegas, Hillary Clinton mentioned a couple of times about being the FIRST WOMAN PRESIDENT but if elected, would she actually be the first? Read below the tantalizing historical happening regarding this very question.

The Answer

When President Woodrow Wilson was on a trip, and as the train neared Kansas, Wilson had a paralyzing stroke. His entourage turned back to Washington, D.C.

While his advisors were busy making plans about what to do, **Edith Wilson**, President Wilson's wife took charge. This strong woman allowed no one to see her husband without her permission, not even the Vice President of the United States.

Mrs. Wilson even determined what pieces of legislation were laid before the President. With a shaky hand, Wilson signed the letters and

documents his wife placed before him. Even his private secretary placed the memorandum on vital questions before Mrs. Wilson, who decided, when and if, they reached the President. Essentially, Mrs. Wilson was the reigning monarch.

Conclusion: So it was in 1920. Edith Bolling Wilson was not only the secretary to the President, acting Secretary of State, but also the Acting President of the United States as well.

Commentary: Unlike Hillary Clinton, Edith Wilson had no personal ambitions of her own, but she was determined that as long her husband was breathing – He would remain President of the United States of America.

So, Hillary, you should have been more alert when Bill was President and seized an opportunity because next year a Republican will be President.

ASSEMBLY MEMBER MARIE WALDRON

"Research Animals Might Get Another Chance"

Most of us love Beagles. Their eager-to-please, calm personalities make them the perfect pet. This trait also makes them perfect for research purposes. But what happens after these animals are no longer needed for research?

As a dog owner and animal lover, I am interested in protecting animals that have been used for research in our colleges and universities. Currently, there are no federal or state guidelines pertaining to post-research adoption policies for animals used in scientific or medical research. Obviously, once they are no longer needed for this purpose, these dogs and cats should be released for adoption whenever possible.

To help accomplish this, I have joined Assembly Member Matt Dababneh (D – Encino) as the principal co-author of Assembly Bill 147, sponsored by the Beagle Freedom Project. It requires any postsecondary educational institution that uses dogs or cats for research to offer the animals to adoption or rescue organizations if it is determined they are suitable for adoption. While many colleges and universities already have internal adoption programs, this measure will create a statewide standard to supplement those policies.

I am pleased to report that AB 147 received final legislative approval on August 27. The bill has been forwarded to Governor Brown and awaits his signature. If you would like to contact the Governor to request he sign AB 147, please give his office a call at (916) 445-2841 or send him a fax at (916) 558-3160. You may also email Governor Brown through his website at <https://govnews.ca.gov/gov39mail/mail.php>

Hopefully, by taking this small step we can ensure that research animals in California have a chance at a full, happy life with a loving human family.
